

## ENGIE contributes to the fight against Covid-19 in Saudi Arabia

ENGIE made a contribution of 1.875 million Saudi riyals to support the initiative of the Ministry of Health of Saudi Arabia in fighting against Covid-19. With this benefaction to the Saudi Health Endowment Fund that has been added towards ventilators, medical quarantine rooms and equipment, the company assures its valuable role to aide those who have been affected by the pandemic.

'As the long-term positive energy partner to the Kingdom of Saudi Arabia, ENGIE has contributed SAR 1.875 million in Ventilators and Medical Quarantine equipment to the Ministry of Health. The contribution will be focused towards the speedy recovery of those infected and towards mitigating the contagion. ENGIE is at the front lines of this pandemic and has taken all the necessary measures to ensure ENGIE power and water plants across the country deliver the essentials of life and that strong health and safety measures are in place to protect our employees. We stand united with the Kingdom of Saudi Arabia during this pandemic and wish citizens and expatriates the best of health and prosperity.', commented Turki Alshehri, Chief Executive Officer of ENGIE in Saudi Arabia.

In these difficult times, ENGIE believes that it is its obligation as a positive partner to be in a supportive role to the Saudi governments that have been in the forefront in addressing the needs of the citizens and the residents in the county.

ENGIE has been present in Saudi Arabia for decades and is established as one of the largest independent power and water producer in the Kingdom, and as a leader in energy services.

## About ENGIE MESCAT

ENGIE has a regional presence of almost 30 years in the Middle East, South & Central Asia and Turkey region. We are the regional leading independent power & water producer with a gross capacity of 32 GW of power and 5.5 million m<sup>3</sup>/day of water production, serving over 40 million people daily with power and 10 million with potable water from desalination. ENGIE's renewable portfolio exceeds 1.5 GW in India, where we also provide decentralized solar power to 70,000 customers. ENGIE also provides over 350,000 people with clean power in India, through its subsidiary Simpa Energy. In Turkey, ENGIE has 370,000 customers in gas distribution and is active in energy retail, trading and origination. The Group owns 40% of Tabreed, the regional leader in district cooling, which currently delivers over 1.2 million tons of cooling across 75 plants in the GCC, where ENGIE is also a leading provider of Customer Solutions.

## About ENGIE:

Our group is a global reference in low-carbon energy and services. Our ambition is to become the world leader in the energy transition of our customers, businesses and local authorities. We rely on our key businesses (renewable energy, gas, services) to offer competitive turnkey solutions "as a service".

With our 160,000 employees, our customers, partners, and stakeholders, we are a community of Imaginative Builders, committed every day to more harmonious progress.

The turnover in 2019: 60.1 billion Euros. The Group is listed on the Paris and Brussels stock exchanges (ENGI) and is represented in the main financial indices (CAC 40, DJ Euro Stoxx 50, Euronext 100, FTSE Eurotop 100, MSCI Europe) and non-financial indices (DJSI World, DJSI Europe, and Euronext Vigeo Eiris - World 120, Eurozone 120, Europe 120, France 20, CAC 40 Governance).
